stroyed by fire during a performance. A  
panic ensued and 130 lives were lost.

Dr. Miller, of the Mounted Police,  
committed suicide on Wednesday last by  
shooting himself with a Snyder rifle.  
An inquest was held on the body Thurs-  
day afternoon and the evidence went to  
show that he had gone to his room to  
dress for dinner, telling his servant that  
if he did not come down to take him up  
some soup; on the servant going to his  
room, as requested, he found him dead.

He had loaded a Snyder rifle, tied a  
string to the trigger and to his foot,  
propped himself well up in bed and put  
the muzzle to his mouth. On the gun  
being discharged the whole top of his  
head was blown off and scattered over  
the room. A verdict of temporary inso-  
nity was returned. He was buried at  
3.30 on Thursday afternoon.

**OUR PROGRESS.**

Probably no town in the North West is founded on so sure and legitimate a base as Prince Albert, nor has its progress been advanced by any fictitious means. Surrounded by a vast agricultural country, the North with its vast mineral and timber resources is still practically undeveloped. Furthermore, it is sufficiently distant from Winnipeg as to in no way balk the rapidly increasing trade of that embryo Chicago. Its population consists largely of Canada's best sons who, attracted by its many natural advantages and not by the advertising pamphlets of interested parties, penetrated far in advance of civilization into this distant region and never had any reason to regret their choice. The development of the surrounding country by our sturdy and brave pioneers has led to the establishment of many industrial enterprises, of which probably the most commendable is the Prince Albert joint stock mill now placed before the public by some of our most prominent business men.

We have only one mill at present and the fact still fresh in the public's mind, that both our mills were destroyed by fire in 1884, thus leaving an agricultural community of 3,000 people in a most deplorable condition, shows the necessity of the project. As an investment of private capital, apart from the indirect benefit which will be derived by every person in the settlement, we have no hesitation in recommending this scheme to the mercantile and farming community and we trust it will meet with their most hearty support, especially as we are informed that ample insurance facilities can now be secured, guaranteeing investors against the fire fiend. A glance at the prospectus prepared by qualified experts should attract the attention not only of our own but even of outside capitalists.

The future commercial greatness of this point cannot be disputed. We are in the very heart of Canada's vast domain. Without reckoning on "our magnificent

stretches of water courses," we have every reason to hope for almost immediate railway facilities. Besides that main artery from ocean to ocean—the Canadian Pacific Railway—we are also the objective point at present of the great new projected transcontinental line in which the Grand Trunk, Northern Pacific, and Red River Valley Railways are interested, and Prince Albert must become a capital of magnitude and importance on the line of this great transportation scheme. The realization of these long deferred hopes of railway communications will be a just and fitting compensation for the chastening our pioneers have undergone during past years, and will lead to a continuous and well deserved prosperity.

We understand Mr. J. Knowles, banker, is the secretary of the proposed Prince Albert Milling Co., to whom application for shares should be made, and from whom the prospectus can be obtained.

**DR. MILLER.**

The news of the sudden death of Dr. Miller, of the N.W.M.P., which occurred at Battleford on Thursday last, will be seen by our telegraphic news, has caused a most painful feeling here, where the doctor was well known and appreciated. Probably of all the old-time Police officers, few were more respected than the doctor. He joined the Police in 1874, has been in the service ever since, and there is hardly a spot in the Northwest where he has not been stationed in the course of his long career. Perfectly unostentatious, in fact rather retiring than otherwise, he seldom attracted attention but when occasion demanded it, and then he rose equal to any emergency. In Prince Albert he will long be remembered as one of the heroes—if not the hero—of the Duck Lake fight. Perfectly cool and impassive, he not only stayed in the firing line, but attended to the wounded as they fell, and did all he could for them, that circumstances would permit. He escaped without a wound, although a spent bullet was found in his instrument case. In the absence of civilian doctors, he was always willing to employ his splendid professional abilities, rarely taking a fee. In many a scattered settlement, in many a distant Police post, and moreover in many a half breed hut and Indian tepee this news will cause unfeigned regret, for few men were better known and none will be more missed in the Northwest than Robert Miller.

Messrs. G. T. Brown and H. Peard were out for a couple days duck shooting. They succeeded in bagging about forty brace.

Last week Staff-Sergt. Parker succeeded in bringing down some eighty ducks in one day's shooting, nearly all of which he shot on the wing.

Rev. Canon Flett, Inspector of Public Schools, left for Saskatoon last week to inspect the school in that settlement. He will visit other schools in the district on his way home.

The appearance of the tower on the East End School has been spoiled by painting the steeple. We hope the same thing will not happen to the Mission School. Leave the tin bright by all means.

The infant son of the Hon. Lawrence Clarke died very suddenly last evening. The bereaved parents will have the heartfelt sympathy of the entire community in their affliction. Mr. Clarke is in Winnipeg attending the council of the Hudson's Bay Company. The funeral will take place to-morrow at 2 p.m., at St. Mary's and will doubtless be very numerously attended, as probably few people enjoy the respect and esteem of our people more than Mr. and Mrs. Clarke.

**ADVICE TO MOTHERS.**—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? I send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Dysentery and Diarrhoea, regulates the stomach and bowels, cures Wind Colic, softens the bowels, reduces inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the most skillful and experienced nurses in the United States, and is for sale by all druggists. Give at once. Price, twenty-five cents a bottle. Beware and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

**DIED.**  
CLARKE. At Prince Albert, on Wednesday, 7th inst., Alexander Clark, infant son of H. and M. Clarke, aged 6 months and twenty-seven days.

**SASKATCHEWAN DIRECTORY!**

At the request of a number of influential citizens of the district, I have decided on or about the first of 1888, to issue a directory of the District of Saskatchewan.

It will embrace, besides the usual matter contained in our publications, sketches of the rise and progress of the various settlements throughout the district, setting forth their natural resources, and giving a report for the year 1887.

It will also contain views of the town of Prince Albert, and of Battleford, an alphabetical index of the actual settlers throughout the district, giving their place of residence as near as possible; and post-office, church, and other directions.

No pains will be spared to make it thoroughly reliable as a source of reference for business men and others.  
Advertisements will be inserted at the rate of 10 cents per line, or 25 cents per page. The right of refusal of advertisements will be fifty cents per copy, to those not advertising.

Orders for copies of Directory may be directed to Ed. J. Camp or E. N. Campbell, Stationers, Prince Albert.

Orders for advertisements must be directed to

# TERRITORIAL NEWS

## REGINA.

From the *Journal*, August 25.

An almost unanimously signed petition of ratepayers will be presented to the town council at their first meeting, praying that council to engage Mr. Harry Walker, of Qu'Appelle, as town inspector. The petition was circulated by the members of the brass band, who wish to secure Mr. Walker as leader of the band.

Mr. Dan. Highland, who had charge of constructing the addition to the Windsor Hotel, was badly hurt while engaged in the work on Tuesday afternoon. A railway, and in running up his head struck it, and he fell backwards down the stair case. He was rendered unconscious for fifteen minutes, and sustained injuries in the spinal column, which paralyzed his arms for some time, and his head was also badly bruised. He is slowly recovering, and it may be a long time before he is himself again. A telegram was sent to a brother and sister at Broadway, and they came up on Tuesday night and are remaining with him.

A slight frost on Wednesday morning did some damage to cucumbers, and other tender plants. The weather has been cold during the week, making harvesting pleasant work. The crops are nearly all ready for the threshing. Very heavy rains fell in some districts, particularly to the north and east, on Saturday.

A young son of Mr. D. H. Gillespie had an arm broken the other day by being thrown off an ox.

## BATTLEFORD.

From the *Herald*, September 3.

Local frosts on the night of the 26th cut down some fields of potatoes and other tender vines.

The late grain is ripening fast, and has so far escaped any damage by frost, except in some portions of the Eagle Hills.

Mr. D. H. Macdonald, M. P., arrived from Prince Albert on Friday evening, on his way to British Columbia. He will go south with Hon. Mr. White's party on Monday.

Samples of very good coal, said to have been taken from a seam five feet thick just discovered a short distance up the Saskatchewan, were brought to town last week. We hope this find is not mistaken as to the quantity, the quality speaks for itself.

The Bishop of Saskatchewan will remain over here for another week. He has made a grant towards extinguishing the debt on St. George's church, which will leave but a very small sum to be raised by the congregation in order to free the building from debt. This accomplished, the Bishop will consecrate the church on Sunday, September 4th.

Advice has been received that the steamer Minnow has been purchased by Mr. Lamoureux for himself and Mr. Robson of this place, and would leave Medicine Hat on the 26th for her new route on the North Saskatchewan. The Minnow is sixty feet long, and as she will draw fifteen inches of water, can run at any stage of water.

## EDMONTON.

From the *Bulletin*, August, 13.

W. Anderson, Indian agent, is improving in health.

New police barracks are to be erected at Onion Lake Indian reserve near Pitt. The new telegraph line between Victoria and Battleford commenced working yesterday.

Julius Dugal, pilot of the Northwest, brought two H. B. lots when here on the boat on his last trip.

The police mess room, removed from Edmonton, arrived at Fort Saskatchewan this week by raft and is now partly erected.

Angus McKay, of the H. B. Co., Pitt, has a trained mule with which he believes he can make the trip to Battleford, 96 miles, and return in two days.

J. Lamoureux has abandoned his tug as a failure and left her on the river above Battleford. He has purchased the tug Minnow from the trait Co., and is on Battleford on his way to Lethbridge to bring her up.

A party of three men and two women, lately in the employ of the H. B. Co., in the New Caledonia district, northern British Columbia, arrived from that region by way of Peace river and the

Athabasca landing on Saturday last. They left for Manitoba, their former home, on the Northwest on Monday.

His Lordship Bishop Grandin arrived from Calgary on Friday evening accompanied by Rev. Father Lestane. He was accorded a formal reception at Saint Joachim's church, the choir singing the Te Deum. He remained at St. Joachim's until Wednesday morning, when he left for St. Albert escorted by a procession which came to Edmonton to meet him. He will leave on a tour of inspection throughout the various missions of his diocese about August 24th. Rev. Father Ledyd did not accompany the party in from Calgary.

Harvesting is well under way. There are some fine samples of grain in the district.

RUSSIAN WHEAT.

Ottawa, August 22.—When Professor Saunders, director of the central experimental farm, appeared before the committee on agriculture and colonization last session, he stated that one great object of this year's experiments at the farm was to ascertain whether a wheat could be obtained which would ripen ten to fifteen days earlier than the Red Fife. A Russian wheat was obtained, and to-day the following communication in regard to it came to hand from Mr. Andrew Johnson, of Mowbray, Manitoba under date 10th inst.:

MR. JOHNSON'S REPORT.

"Your sample reached me on the 29th of April. I sowed it on the 30th of April. It was up on the 7th of May, on the 19th it was five inches high, on the 21st of May six inches and on the 26th 14 inches. On the 24th of June it was shot and on the 25th of July it was ripe, and I cut it. It was put in a piece of ground containing 81 square yards, and on threshing gave 44½ pounds of wheat as per sample, thus averaging 43 bushels to the acre. The straw was about three and a half feet long; it was stiff and stood well. I may mention that the soil was sandy loam. Red Fife sown here on April 6th on the same soil was not harvested until the third of August, from this infer that the Russian wheat is the very wheat required in this country, as the loss by the early frosts will be minimized by its use."

ANOTHER FARMER'S TESTIMONY.

Mr. G. H. Halse, of Brandon, reports that the Russian wheat supplied to himself was fairly tested, and in his opinion it is quite three weeks ahead of the Red Fife. He wants a large quantity for seed next year, and says he is willing to pay almost any price for it.

AN INCALCULABLE LOSS.

From the foregoing testimony it would appear that this year's experiments have been eminently successful. Summer frosts have been the bane of the Northwest farmers, and should it be further demonstrated that this Russian wheat is all that the two gentlemen referred to say of it the benefit to the grain growers of Manitoba and the Territories will be incalculable, and the expenditure in the establishment of the experimental farm well warranted.

THE TEST AT THE CENTRAL FARM.

Professor Saunders has received samples of Mr. Johnson's products. The wheat is nice and bright, thoroughly hard in texture, scarcely so plump as the original, but without a soft grain in it. All the wheat at the Central farm has been safely harvested, and here the Russian variety ripened fully eight days ahead of Red Fife sown alongside of it. As it has not yet been threshed, the amount of the yield is not known, but it is thought it will be very high. The Russian grain experimented upon came from Riga, and was grown in a latitude 600 miles north of Ottawa.

There is now no doubt that Mr. Betts has secured at the great trade sale in Montreal last July the finest stock of Men's Underclothing ever opened in Prince Albert.

Mr. E. J. Cunn has purchased and brought in a beautiful double scull sailing boat shell, the first of the kind brought in the country. Mr. H. Nelson is also bringing in a first-class scull. Mr. A. H. Clark has had his skiff redressed and painted in great style. We surely will have a regatta this fall.

GENERAL NEWS.

A duel was fought with swords in Paris between Labryere, a writer for the radical journal *Le Cri du Peuple*, and an army officer named Melville. Both men were badly wounded. The affair was the result of a private quarrel.

The marriage of the Emperor of China has been postponed for two years owing to the illness of the youthful monarch and the prevailing monetary stringency.

It has been decided to place the Queen's jubilee presents upon exhibition in London.

Two of the Belgian fishermen who were charged upon by the gendarmes and wounded have since died. A number of Ostend fishermen seized two English boats and when ordered to abandon them refused to do so. The gendarmes thereupon fired at them wounding four of their number.

Deputy Laur, of Paris, Fr., has summoned Mr. Paul de Casagrac before the courts. Mr. Laur charges that his character was defamed by Mr. Casagrac in connection with the Boulanger coup d'etat story.

Another attempt was made to assassinate the Czar. A nihilist disguised as an officer of the guards approached the Imperial guards while they were escorting the Czar on the journey from St. Petersburg to Krasnoe and twice fired a revolver at the Emperor. The first shot went wide of its mark, but the second perforated the Czar's coat. The assailant was promptly seized and disarmed.

The outrages by the Belgians on the English fishing vessels have led to an increase of the English force in the North sea. Nine vessels of war, including five steamers, will be employed in protecting the English craft.

A battle was fought between Colorado's band of Utes and Sheriff Kennell's men on the 22nd August, in a canyon six miles west of Rangely, and while the reports are conflicting as to the actual results there is no question that men were killed on both sides. There were about 200 whites poorly equipped, including Major Leslie's scouts. Capt. Dana carried a warrant for Colorado's arrest, and it is understood had instructions to bring in the Ute chief dead or alive. The party carried 3 days rations, which were nearly exhausted on reaching Rangely. They had several bloody engagements and sent for reinforcements, but it is feared that if they did not arrive in time a dreadful slaughter may have resulted, as the men were without food and horses.

LOCAL NEWS.

Betts & Gwynne are showing something quite new in Navy Blue Cordery Dress Goods.

We hear that our French fellow citizens of Batouche and elsewhere are getting up strong petitions against the enforcement of the game ordinance in the Saskatchewan; in fact they want it abolished altogether. What have our local sports to say in the matter?

It is with deep regret that we have to announce the death of Mrs. Duncan Campbell, of the east end, which sad event took place on Wednesday last. She leaves a husband and three children to mourn her loss. Mr. Campbell has the sympathy of the entire community in this his very sad bereavement.

We see in the Regina news, in another column, that the band boys and citizens of Regina care to have a good brass band and are bound to bring back their old bandmaster H. Walker. They offer him a good situation in addition to his band. It is only right that a band master should get a situation that affords him time to look after his music.

The meeting of the North West Council has been postponed until the 14th of October. This will enable our member Mr. Hughes to attend, as his duties as sheriff would otherwise have detained him here. Mr. Hughes' absence at the Council would have been much regretted by his constituents, as business of importance may come before the Council and we feel satisfied that when Mr. Hughes is present he will look after the interest of the Territories in general and special attention will be given to the district which he has been elected to represent.

Those who have seen, claim Betts & Gwynne show a complete range in Silk Plushes, Velveteens, Dressing Gowns, Crespes, etc., etc.
